

## Message from Michael T. Dan

Chairman, President and CEO of The Brink's Company

In just a few short months, on May 5, 2009, we will celebrate the Company's most historic milestone — our 150th anniversary. This unique accomplishment is one that few companies have ever or will ever achieve. I believe Perry Brink would be proud to see that his dream is not only alive and well after all these years, but that it also served as the foundation for an entire industry that is today an integral part of business worldwide.

Over the next 12 months, you will have the opportunity to participate in anniversary-related activities designed to engage our customers and our communities in the celebration of Brink's 150th year in business.

First and foremost, the anniversary is our celebration. I hope that, in addition to the activities we have planned, you will find ways to commemorate this historic occasion in your own way, with your own teams.

The current economic climate has been difficult for all of us. Our anniversary serves as a reminder of the people, trust and innovation that make our Company strong and that will continue to lead us through this and any other challenges we may encounter over the next 150 years.

I look forward to celebrating our 150th anniversary together.
